## OBJECTIVE

---

I am seeking a financial planning job starting in the summer of 2025 after I graduate. I am looking for an environment where my personality and skills can flourish. I have spent time in many different areas of business throughout my prior work experience and have an ability to see problems from a wholistic point of view. I want to bring value to the company through hard work and problem solving skills.

## SKILLS & ABILITIES

---

- Problem solving across multiple disciplines
- Working in cross-functional teams
- Knowledge of financial statements
- Investment knowledge and experience
- Time management and efficiency

## EXPERIENCE

---

May 2019 - August 2023

### **Guild Associates** Internships

Spent time working in multiple aspects of the business including: workshop/lab technician, accountant, market researcher, product development/engineering, customer relations and business development. Most recently experience was in accounting, business development and market research.

## EDUCATION

---

August 2021 - Present

### **University of Dayton** Business Administration, Finance

In the process of completing bachelor's in business administration focusing with a focus on finance.

August 2017 – May 2021

### **Bishop Watterson High School** High school diploma

## COMMUNICATION

---

Both written and verbal communication skills, prompt response time and willingness to work in coordinated teams.

## LEADERSHIP

---

Ability to lead by example and hard work. Provided training for new employees that had not worked with certain software/equipment that was in use.
